

Dispose of Fats, Oils and Grease Properly

CLOGS ARE A PAIN IN THE DRAIN

FOG ITEMS FOR DISPOSAL

Motor Oil, Transmission and Brake Fluids, Grease and Lubricants, Oil Filters, Antifreeze, Solvents and Degreasers, Fuels

PROPER DISPOSAL

Collect FOG in containers and use designated recycling centers to recycle any used car wash-related oils and fluids.

COMMON DO'S + DON'TS

- ✓ Perform regular maintenance on car wash equipment to reduce spills or leaks.
- ✓ Follow proper procedures for disposing hazardous waste materials.
- ✓ Perform routine maintenance of any GRD (Grease Removal Devices) to ensure proper operation.
- ✗ Don't ignore or allow spills of oils, lubricants or chemicals to remain unaddressed.
- ✗ Don't dispose of car wash-related waste in drains, stormwater systems or sewers.
- ✗ Don't neglect compliance with environmental regulations and permits.
