

Backflow Tester Partial Listing

EAST VALLEY WATER DISTRICT

Dear Customers and Backflow Testers,

East Valley Water District requires a legible signature on all test forms. Test forms are provided with test due notification letters. Blank forms may be downloaded and printed from www.eastvalley.org, under the Backflow Prevention section. We encourage our customers to update any data on the test form that may have changed since the last test was completed. For your convenience, a partial list of certified testers is included below. A full list of certified testers is available at www.sbcounty.gov. If you have any questions about the backflow testing process, please contact our Water Quality department at (909) 806-4222.
